orthers are warned not to pay their tion except upon prescription of a receipted bill from this office.

Entered at postoffice at San Antenio, Teras, as second-class matter.

### WEDNESDAY, JULY 18, 1883.

WILIZAM D. CLEVELAND, of Houston, gave \$50 to help build a school house at Kosse. As a judicious advertiser he is a success.

THE Mount Pleasant News makes a new departure in its premium for paper business, by offering one copy of that p-per for the best four-year old steer, and the best bale of lint

As an evidence of the almost sinful waste of the public domain, it is stated that the Legislature of Florida have given away to railroads from 2,000,000 to 5,000,000 more acres of land than they had to give.

the Henderson News, is an article upon the subject, speaks quite plainly to the point in the following:

"The sulf main object we could have in wanting our resources shown up there would be the ultimate increase of population and capital from the favorable impressions that would be made on the minds of those who visit and read of the exposition. We, in the Eastern portion of the State, suffer more from this hurfful legislation thus any other portion. We have not had the initius of people to run up the value of our laude, as other sections of the State have had. We have never had our resources shown to the world, only occasionally by private means furnished by railroads. The Gavernor's appeal for private aid, is clamoring for a thing that slumbers axied the dim impossibilities. No man is going to hand out his money without any organized system for its application.

We have nothing to do but to lie down on the head that a majority of our representative men have made for us. The golden opportunity has passed."

TELEGRAPHIC NEWS BOILED DOWN

The telephone line between Houston and Galveston will be completed by the 1st of

GALVESTON'S first bale of new arrived Tuesday morning from DeWitt county and will be sent to Liverpool.

Monday night, in Monterey, Rev. Mr. Shaw, who had been left in charge of the American Cousul's office during the Consul's absence to Laredo, was assaulted by unknown men, and now lies in a critical condition.

men, and now lies is a critical condition.

An Alexandria (Egypt) dispatch says: The cholers is spreading generally throughout the country. The sanitary commission is taking steps to isolate Alexandria. Twenty-eight deaths from the disease occurred at Damietta yesterday, 35 at Mamurah, and 15 at Samanaud.

New York is considerably agriated over the threatened strike of the telegraphers, and all the papers publish editorials on the subject. The Executive committee of the Union Telegraph company will meet to-day, and the

ject. The Executive committee of the control Telegraph company will meet to-day, and the petition of the operators will then be brought to their consideration.

A Case (Egypt) dispatch says: It is very apparent that the number of deaths from cholers here have been much greater than was stated. It is believed that 50 of 60 deaths have already occurred. The railway from Cairo to Alexandria is expected to discontinue its opperations immediately.

A NASIVILLE dispatch says that R. O. Swayne, formerly deputy of the Supreme court, was arrested has evening, on a warrant sworn out by State Treasurer Thomas, chaging him with abstracting the balance ledger in the Treasurer's office. Swayne has for a long time occupied a room in the State Capitol building. building

building.

A DEFATCH from Palestine says that the workmen in the International shops, demanded on advance of 5 cents per hour, and to instead of 8, which was refused, whereupon there was a general strike, and work in the ships has suspended. Great excitement prevails, and the strikers say that it is the heginning of a general movement on the Gould lines.

The Sunday law in Galveston has waked up the natives in grand style, and propositions to retaliate by preventing any business whatever from being done on that day develop the fact that the law permits the market and provision dealers to sell before q a. m., and that burish materials, newspapers, ice and milk may be sold at any hour. Sending and receiving tel-egrams is allowed at all hours.

Tite jury were sworn in in the Polk trial at Nashville yesterday, and the examination of the State's witnesses commenced. Fleming, a former clerk, was examined, and said that in April, 1882, when railroads from 2,000,000 to 6,000,000 more acres of land than they had to give.

The Houston Post would be more successful in its new role of attempting to be the great State paper if it were more honest in the matter of credit for the news it bodily takes from the outside papers. If an item is worth copying into its columns it is worth crediting and as small fry fellows think as much of our abilities in the newspaper line as the larger ones, and we are entitled to receiving whatever credit we deserve.

PROSPERIOUS.

The papers throughout the State comment generally upon an item in the Lightr which stated that \$50,000 had been refined for a corner lot in this city, and think the price

The Despited Trade Dollar.

The papers throughout the State comment generally upon an item in the Lightr which stated that \$50,000 had been refused for a corner lot in this city, and think the price is somewhat exhorbitant. But a glance at the bailding permits issued every day is very good evidence of the rapid growth of San Antonio, and the constantly increasing price of desirable real estate, and it goes without saying that no other city in Texas is making better material progress, both in business and population.

THE LOUISVILLE EXPOSITION.

Much has been written about the position and interest Texas will take at the Louisville time, because of the want of a proper since, because of the want of a proper since for use in the Chinese trade, at a time when our currency was paper, as a vory, it is said, to the bonance silver than the standard deallar and upon the silver than the standard deallar and the population of a new law again to find some use for the product of the indication.

Adulterated Texas.

A self Accusatory Parret.

From the Cleveland Veloc.

Some—A small lawn on Seneca street.
Time—Noon. Personages—A parrot sunning theil on a perch besides an open cage door, and a strange dog wandering upon the lawn. The parrot speaks first. "Sick! Sick! Sick him." The dog, with ears and tail erect, looka about for something on which to charge; he espies the parrot, and an exciting scene cosises. From out of the confused mass of dog hair and parrot feathers comes the shrill cry. "Git out! D—n you, git out!" Dog breaks for the street. Parrot, after louking at herself from head to foot, gravely exclaims: "Folly, you talk too much."
